

3X MORE EFFICIENT.

MAN Lion's City: Environmental awareness that pays off.

In every city around the world, the volume of traffic is on the increase – as are the related challenges. Alternative solutions are what's called for – particularly when transporting people. MAN has just the right portfolio for you: the new MAN Lion's City generation – quiet, clean and energy efficient thanks to alternative drives such as natural gas, EfficientHybrid or electric. This means that it's not only you who takes a big step into the future, but also your city. www.bus.man
